

ELECTRIC DUMPER RANGE | ITE, 3TE

100% electric. Zero emissions.

MAX. OPERATING WEIGHT
2,290kg

MAX. PAYLOAD
3,000kg

MAX. BATTERY CAPACITY
20kWh

ZERO EMISSIONS

The existing ITE and the new 3TE are fully electric, designed to work safely in urban, air quality sensitive environments, indoors and in enclosed spaces.

CLEANER WORKING

JCB is transforming work sites with industry-leading technology, offering zero emission solutions at point of use.

INDUSTRY'S SAFEST

Roll over protection system (ROPS), two-step drive inhibit system and non-removable batteries keep your machine secure and ensure the safety of operators and bystanders.

TRIED AND TESTED

Both of our electric site dumpers are built using proven JCB E-TECH components you can trust.

MAXIMUM RELIABILITY

The ITE and 3TE have multiple charging options, providing you with enough battery capacity to complete a typical working day.

MINIMUM NOISE

Reduced noise levels allow for round-the-clock working and better on-site communication between co-workers.

GREATER COMFORT

With a modern operator station, multi-function display screen and minimal machine noise, the 1TE and 3TE dumpers are designed with maximum comfort in mind.

CONSISTENT DESIGN

The 3TE has the same ergonomic control layout as the 3T Diesel, providing consistency across machines.

ULTIMATE VERSATILITY

A high-tip skip on the ITE and swivel-tip skip on the 3TE allow effective working across different applications, whether tipping into skips or working in confined spaces.

ZERO COMPROMISE

With 10kW and 20kW of peak power, the ITE and 3TE deliver equal performance to their diesel counterparts.

ELECTRIC DUMPER RANGE | ITE, 3TE

SPECIFICATION

MODEL		ITE	3TE
Payload	kg	1,000	3,000
Service intervals	hours	500	500
Transport width	mm	1,126	1,656
Transport height	mm	1,624	1,913
Transport length (ROPS folded)	mm	3,403	4,360

STANDARD FEATURES

- All steel body construction
- High-tip and swivel tip skips
- LED amber & green beacon
- Two stage drive inhibit system
- Narrow overall width
- Easy to access tie-down points
- ROPS frame
- Ground level daily checks
- Full steer column protection
- Reverse alarm

ITE SITE DUMPER

100% ELECTRIC, ZERO EMISSIONS

100% electric. Zero emissions.
